

The FAA Safety Team presents:

# Monthly Hangar Flying SAFETY Meeting

So what is single-pilot resource management? The FAA Risk Management Handbook notes that SRM is defined as the art of managing all the resources (both on board the aircraft and from outside sources) available to a pilot prior to and during flight to ensure a successful flight. It's about how you gather information, analyze it, and make decisions. It requires the pilot to competently perform a number of mental tasks in addition to the physical task of basic aircraft control. These include: situational awareness, task management, automation management, risk management, aeronautical decision-making, and CFIT (controlled-flight-into-terrain) awareness. That is no small challenge, especially for GA pilots whose aeronautical experience may be limited. How do you do it? At this informative meeting we'll discuss all these factors and how to apply them. Additionally, we'll also relate all of these elements to night flying. Free refreshments courtesy of TRUE COURSE FLIGHT SCHOOL.

**Directions:** Meeting in TRUE COURSE FLIGHT SCHOOL hangar.

**A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

## Event Details

**Wed, Mar 18, 2015 - 18:30 EDT**  
**TRUE COURSE FLIGHT SCHOOL**  
53 AIRPORT DRIVE  
Fulton, NY 13069

**Contact: JEFFREY JAMES VANDEYACHT**  
(315) 598-4482
